

The Wheeler Way - Curriculum INTENT

Art lessons at Wheeler should inspire children and spark an interest in being creative that lets them express themselves using a variety of materials, first hand experiences and their imagination.

The subject pillars are:

To provide all children with first hand opportunities to express themselves visually in an enjoyable manner.

To develop the child's ability to observe, imagine and record visual images, as a means of expressing their ideas and feelings.

To develop skills in drawing, painting, printing, sculpting and modelling as a means of understanding and expressing their experiences.

To develop a visual language, building confidence and competence in discussing and evaluating visual images and artefacts.

To learn about the importance of an artist, crafts person and designer and the impact they make on society.
