

The Wheeler Way - Curriculum INTENT

Geography lessons at Wheeler should inspire in children a curiosity and fascination about the world and its people.

The subject pillars are:

Children are able to name key human and physical features and understand the processes that create them.

Children will develop contextual knowledge of globally significant places.

Children are able to confidently interpret maps, atlases and globes.

Children will take part in fieldwork experiences, allowing them to collect, analyse and communicate data in a range of formats.

Children will be taught geographical vocabulary and be able to use it in the correct context.
