

The Wheeler Way - Curriculum INTENT

P.E. lessons at Wheeler should inspire and motivate children to maintain an active and healthy lifestyle through experiencing a range of fun physical activities and sports.

The subject pillars are:

To provide all children with first hand opportunities to express themselves physically in a safe and enjoyable environment.

To develop the child's gross motor and fine motor skills through a range of sporting activities.

To experience lessons that provide all children to develop agility, co-ordination and balance, which can be applied across a range of sports.

To work as a team and/or an individual to develop leadership, and communication skills.

To be given the opportunity to compete in different sporting activities across the city, and where possible be provided with details of external clubs to encourage the children to develop a life long interest in sport.
