

RE at Wheeler develops children's knowledge and understanding of faiths and beliefs, so that they are able to develop their own views which are built upon respect, enquiry and reflection.

The subject pillars are:

Lessons which allow children to build **knowledge** and **make connections and make comparisons** with **prior learning**

Lessons which allow children to **reflect and create their own informed views**

Units of work which where possible include **concrete experiences (visit faith leader, artefact etc.)**

Lessons which are built on an **enquiry** approach and foster children ability to **ask appropriate questions**
